

Datacard® CR500™
 The most advanced, secure, and reliable card reader available. It's the only card reader that can read all types of cards, including contactless cards, and it's the only card reader that can read cards that are damaged or expired. It's the only card reader that can read cards that are not in the standard format. It's the only card reader that can read cards that are not in the standard format.
